## Speedy Copying with SOPM

The AR-5623N/5620N/5618N's Scan Once/Print Many (SOPM) function stores a scanned original into memory to quickly produce up to 999 copies per page at a continuous copy rate of 23/20/18 cpm. What's more, a quick first copy time of **5.9 seconds** (AR-5623N)/**7.2 seconds** (AR-5620N/5618N) and a fast warm-up time of **25 seconds** save valuable time when performing multiple short-run jobs. For added convenience, an **Electronic Sorting** function allows the AR-5623N/5620N/5618N to automatically collate multiple sets of copies in page order without the aid of a sorter.

## Built-In Duplex Module and Optional RSPF

The AR-5623N/5620N/5618N can automatically produce duplex copies from one- or two-sided originals, thanks to a built-in duplex module. And duplex copying is even more productive when the optional 40-sheet Reversing Single Pass Feeder (RSPF) is used along with the module.

## Versatile Editing Functions

The AR-5623N/5620N/5618N comes standard with such image-editing functions as ID Card Copy\*, XY Zoom, Dual Page Copy Mode, Rotation Copy, Margin Shift\*, Edge/Centre Erase, and 2-in-1/4-in-1—all of which make copying more convenient.

\* Depending on the region, the default setting will be either ID Card Copy or Margin Shift, but users can change the default setting via the system setting menu.

## Speedy Network Printing

As a high-performance TCP/IP network printer, the AR-5623N/5620N/5618N incorporates **Sharp Printer Language with Compression (SPLC)** technology, which effectively reduces the data size of print jobs to speed up data transfer and the printing process while improving overall throughput. Still another timesaving function, RIP Once/Print Many (ROPM), saves print data in the AR-5623N/5620N/5618N's internal memory and transfers it to output at a fast rate of 23/20/18 ppm.

## A3 Colour Scanning over the Network\*

The AR-5623N/5620N/5618N's A3 colour scanning function converts paper documents into electronic files that can be downloaded to your PC over the network\*. **Button Manager** makes it easy to scan images into applications such as Microsoft Word®, e-mail, or OCR. And with the optional **Sharpdesk** software, scanned documents and PC-created files (in Word, PDF, or other formats) can be managed efficiently on a PC.

\* On a peer-to-peer basis. Requires bundled connection utility (SC-Scan A).

## Large Paper Capacity

The AR-5623N/5620N comes standard with two 250-sheet front-loading paper trays (one 250-sheet tray for the AR-5618N) and a 100-sheet multi-bypass feeder. Two types of paper drawers are available for a total paper capacity of up to 1,100 sheets.

**1,100 Sheets**

## Other Key Features

- 10Base-T/100Base-TX interface
- Digital auto exposure control, Text/Photo mode
- Automatic paper selection (APS)
- Automatic magnification selection (AMS)
- Auto tray switching
- Pre-Heat and Auto Power Shut-Off modes
- Cost-efficient Toner Save mode
- Highly reliable paper feed system minimises paper jams
